NOTES. - In determining the rate of pay to which an officer is entitled, (a) determine the base pay by reference to rank and service for pay period purposes, (b) then determine the applicable rate of pay according to that base pay increased by 5 percent for each 3 years of service for longevity purposes up to 30 years. These footnotes constitute statements of law. For detailed information, instructions in Bureau of Supplies and Accounts Manual must be consulted.

[1] Service for longevity purposes--

(a) Commissioned officers, except commissioned warrant officers. - In the computation of service for pay purposes, commissioned officers shall be credited with full time (active and inactive) for all periods during which they were enlisted or have held commissions as officers or have held appointments as warrant officers or Army field clerks in the--

In addition to the service specified in the foregoing, officers who were in the regular services on 30 June 1922 and have served continuously as such subsequent thereto, are entitled to count all service which was then counted in computing longevity pay, and service as contract surgeon serving full time. Reserve officers and officers appointed to the regular services pursuant to the Aviation Personnel Act of 1940 are entitled to count prior active service as appointed aviation cadets. Service as an enlisted aviation cadet on and after 4 August 1942 is enlisted service and is counted as enlisted service. Retired officers, warrant officers, and enlisted men on active duty are entitled to count inactive service on the retired list in computing their active duty pay. Service in the Coast and Geodetic Survey which may be counted for pay purposes is service in excess of one year as a deck officer or a junior engineer and service in the grade of aide (relative rank of ensign), or in a higher grade. Service in the Public Health Service which may be counted for pay purposes is service in the grades of assistant surgeon, assistant dental surgeon, or assistant sanitary engineer (relative to the rank of lieutenant (junior grade)) or in a higher grade.

(b) Commissioned warrant officers. - In the computation of service for longevity increases in pay, commissioned warrant officers shall be credited with full time (active and inactive) for all periods during which they were enlisted or have held commissions as officers or have held appointments as warrant officers, or Army field clerks in any of the services shown in footnote [1](a), except in the Medical Reserve Corps of the Army.

(c) Warrant officers. - In the computation of service for longevity increases in pay, warrant officers shall be credited with full time (active and inactive) for all periods during which they were enlisted or have held commissions as officers or have held appointments as warrant officers, or Army field clerks in any of the services enumerated in footnote [1](a), except in the Medical Reserve Corps of the Army.

[2] Service for pay period purposes--

(a) Commissioned officers, except commissioned warrant officers. - For purposes of determining the pay periods of commissioned officers, such service as may be counted in computing longevity pay shall be counted.

(b) Commissioned warrant officers, U. S. N. - For purposes of determining the pay periods of commissioned warrant officers of the Navy with creditable record on the active list, only active commissioned service in the Navy, Marine Corps, and Coast Guard, and the Reserve components thereof shall be counted.

(c) Commissioned warrant officers, U. S. N. R. - For purposes of determining the pay periods of commissioned warrant officers of the Naval Reserve with creditable record on the active list, commissioned service, active and inactive, in the Navy, Marine Corps, and the Reserve components thereof shall be counted.

[3] Rental allowance. - An officer without dependents is not entitled to rental allowance under any of the following conditions: (a) while he is on sea duty unless the sea duty is temporary duty not exceeding three months; (b) while he is on field duty unless his commanding officer certified that he was necessarily required to procure quarters at his own expense; (c) while he occupies (or is assigned) public quarters. An officer with dependents is not entitled to rental allowance under either of the following conditions: (a) while he is assigned public quarters and his dependents are not prevented by reason of orders of competent authority from dwelling with him; (b) while his dependents occupy public quarters.

[4] Subsistence allowance. - Subsistence allowance on this table is computed on the basis of 365 days in a year.

[5] Base pay. - Base pay is payable only to commissioned and warrant officers with less than 3 years of service for longevity purposes. All other officers are entitled to the pay shown in the appropriate columns of the table above, i.e., base pay plus a longevity increase amounting to 5 percent for each 3 years of service (as defined in footnote [1]) up to 30 years.

[6] A warrant officer promoted to commissioned warrant officer may be paid the pay provided for a warrant officer if greater than the pay of a commissioned warrant officer. When the total pay and allowances of a commissioned warrant officer shall exceed the rate of $458.33 per month, the amount of the rental allowance to which such officer is entitled shall be reduced by the amount above $458.33.

* Commissioned warrant officers during first 10 years of commissioned service are entitled to base pay at the rate of $2,100 per annum and the allowances of the second pay period; a certificate of creditable record is not required.
